

PRESS RELEASE

October 2023

DISNEY ANNOUNCES, WE ARE NOW WELCOMING PETS INTO THE PARKS

ORLANDO, FLORIDA (OCTOBER 1ST 2023): Disney World in Orlando Florida has made the official decision to allow guests to bring their pets into the parks with them. Depending on the size, and the type of animal, some may even be allowed to ride the attractions. We are known to be a place for family, no matter what kind of family that entails. Ticket prices will range for your furry friend, commencing on September 30th you may purchase a Disney World ticket for anyone that you consider family, starting as low as \$200.

Disney has been welcoming families since October 1st, 1971. In 2001, Disney's Animal Kingdom Lodge opened as home to more than 200 animals. Now in 2023 we are proud to announce the combination of families and animals.

Disney has always had several dog-friendly hotels, allowed service animals and it even provides pet day care services for pets traveling with you. So we have decided to expand our love for your pets.

"Dogs are "superheroes" in their own right; they deserve nothing but the best." Evans states. Chris Evans (Captain America) speaks on this exciting news. He states how his canine Dodger changed his life in more way than he can describe, he cannot wait to spoil him, take him on rides, and give him the experience of a lifetime because he is more than just a pet.

Our purpose is to inform, entertain, and inspire people of all ages all around the globe. We help empower any or all types of families to achieve a memorable experience by granting your furry friend the chance to now enter all parks, so no family is left behind.
